Cascade portfolio

Extensive accessories with plug & play functionality

The THISION® L PLUS is incredibly flexible and is available in either in-line or back-to-back configurations for up to eight boilers, delivering heat outputs up to 1,6 MW. The systems include all the components necessary to complete the primary heating circuit, with the cascade system specifically designed for quick, simple and effective installation.

In-line cascades

	Max. Boilers in cascade		Max. Output		
			1 mw		
		Max. Din	nensions*		
	Width mm			Depth mm	
	4230	1700		755	

	Max. Boilers in cascade		Max. Output		
	8 In-line DUO		1.6 MW		
Max. Dimensions					
	Width mm			Depth mm	
	6520	1700		755	

Back-to-back cascades

Max. Boilers in cascade		Max. Output			
4+4 _{B2B}		1 mw			
Max. Dimensions*					
Width mm	Height mm		Depth mm		
2830	1700		1510		

	Max. Boilers in cascade 4+4 B2B DUO		Max. Output			
			1.6 MW			
	Max. Dimensions					
	Width mm	Heigh	nt mm	Depth mm		
	3880	1700		1510
